

PM2 + Next.js Deployment Steps (Windows)

1. Install PM2 Globally:

```
npm install -g pm2
```

2. Verify PM2 Installation:

```
pm2 -v
```

3. Navigate to Project Folder:

```
cd E:/web2/UISPL_WEB
```

4. Build the Next.js Project:

```
npm run build
```

5. Start Next.js with PM2 (Direct Next Binary Method):

```
pm2 start node_modules/next/dist/bin/next --name nextapp -- start
```

6. Check PM2 Process:

```
pm2 list
```

7. View Logs (if needed):

```
pm2 logs nextapp
```

8. Delete any errored instance:

```
pm2 delete
```

9. Save PM2 Startup:

```
pm2 save
```

```
pm2 startup
```

10. Visit your app:

<http://localhost:3000>

or http://YOUR_PUBLIC_IP:3000

This PDF contains only the PM2-related steps you performed.
